Introducing the **LuxFelt** backing system  
**PERFECTING. ELEVATING. REFINING.**  
**IMPROVING. FOCUSING.**

**PERFECTING.**

**It's what we do.** For over 40 years, Bentley has remained committed exclusively to the high standards of commercial interiors, offering award winning carpets that provide long-lasting beauty and performance. And as preferences and standards for commercial specifications evolve, we are perfecting our products and systems to ensure your confidence and exceed expectations.

**ELEVATING.**

**Introducing LuxFelt.** A new Bentley Carpet Tile backing system created for performance and comfort. Adding LuxFelt to your carpet tile selection increases the Texture Appearance Retention Rating (TARR) results by minimizing wear and tear, extending the appearance of the face fiber by up to 50%. In fact, the entire experience of the space is elevated with LuxFelt—greater sound absorption, improved ambient temperature in winter months, reduced user fatigue, and greater underfoot comfort.

**When installed with Healthbond™ 2399 Adhesive, there is no need for RH or pH testing, and no verifiable intact moisture vapor retarder is required. Bentley's Healthbond 2399 is free of solvents and is CRI Green Label certified for low VOCs.**

**REFINING.**

**Premium fibers guarantee the best possible appearance over the life of the product.** Bentley Premium™ is selected from the highest quality nylon available. This level of refinement allows us to set the standard for yarn performance and the inclusion of recycled content, based on the demanding needs of commercial installations, exclusively.

Bentley Premium™ Nylon is a high-performance yarn system designed to recover over and over again, resisting soiling, remaining resilient, and retaining texture and color even under the most challenging conditions. Bentley Premium™ Nylon never includes topical soil and stain inhibitors or antimicrobial coatings, chemicals that can be harmful to people and the environment.

We remain convinced the success of our installations depends on our commitment to manufacturing excellence, front to back. LuxFelt, like the entire Bentley carpet offering, is PVC-free, in alignment with the Living Building Challenge's Red List Free requirements.

REDUX™ DEUX 6RET4, CAUSE AND EFFECT 403781 - BRICK, LUXFELT CUSHION TILE

**IMPROVING.**

**Bentley designs products that address existing building conditions in order to mitigate installation issues.** The most common of these is moisture in the slab. Our commitment to manufacturing PVC-free carpet, eliminates concerns of degradation or odor due to moisture in the slab, improving the overall installation for the life of the product.

LuxFelt is made in the USA from 100% recycled PET and is recyclable. The simplicity of the composition means it easily can be separated from the whole carpet tile composition to return to the recycling loop, resulting in a lower carbon footprint.

**Bentley Carpet Tile with LuxFelt and Bentley Luxury Vinyl Tile 5 mm can be installed side by side, seamlessly. No transition strips required.**

**FOCUSING.**

**Dimensionally stable products install with consistency and longevity.** LuxFelt, like all Bentley carpets, carries a 15 year warranty for product performance. Our focus on beauty, comfort and quality that lasts, allows you to focus on the life you'll lead with Bentley carpet underfoot.

*For over 40 years, Bentley has remained committed exclusively to the high standards of commercial interiors, offering award winning carpets that provide long-lasting beauty and performance.*

LuxFelt Cushion Tile is tailor-made with the Bentley customer in mind. Combining the best benefits of cushion, like appearance retention and ambient comfort, LuxFelt's high recycled content and PVC-free composition can easily be recycled.

Warranty  
 15-year warranty for problems associated with edge ravel, delamination, and tuft bind.

Noise Reduction  
 LuxFelt offers 30% reduction in noise compared to concrete.

Recycled Content  
 LuxFelt Cushion Tile backing structure contains up to 29% pre-consumer and 61% post-consumer recycled content. See specification sheet for individual product recycled content.

Sustainability  
 Like all Bentley carpets, LuxFelt is certified Cradle to Cradle Silver, NSF® 140 Platinum, and CRI Green Label Plus, is EPD and HPD verified, and is ILFI Declare Label Red List Approved.
